Consumer Notes:

This is a surprisingly light month, actually. AD Vision releases something quite atypical in Rail of the Star (it really does bear a look) and Borgman as well. Pioneer releases the first of the Dragonball Z movies in November (expect this and subsequent volumes all to do well - and, they're available both dubbed and subtitled). Also, the next volume of Tylor ships ... and our new catalog is finally finished (it's at the printers as this is being written)!

JEFF'S PICK(S) OF THE MONTH

Those Space Ghost shirts are truly excellent ... and expect more of them from us as time progresses! Also (again, not to sound immodest), Tylor 2 (Bring Me The Head of Captain Tylor) is a great tape (4 episodes of this popular series for $19.95 retail)!
